Driven cybersecurity engineer with a passion for safeguarding company and user data. Expertise encompasses privacy-enhancing technologies, threat hunting, security operations management(MSOC), privacy regulations, and Pen testing. Proven ability to identify security & privacy gaps and implement effective mitigation strategies.

## Education

- Master of Cybersecurity — Brown University 09/2021 - 06/2023
- Bachelor of Mathematics & Bachelor of Economics — University of California, Davis 09/2017 - 03/2021

## Work Experience

**Cybersecurity Consultant (Blue team & Privacy) — EY, Hong Kong SAR 07/2023 - Present**

- Conducted Privacy Impact Assessments (PIAs) for five international companies, identifying and mitigating data handling risks associated with GDPR, CCPA, PIPEDA, PDPO and PIPL compliance. Identified 100+ data handling gaps in total and advised on privacy-enhancing technologies to mitigate risks. Resulting in a 50+% reduction in identified risks and a 70+% improvement in regulation compliance.
- Served as a core member of the initial team responsible for developing and implementing of 3 Security Operation service lines and the EY Managed Security Operation Center, building security software integration to enhance security log monitoring, proactive threat detection, and comprehensive data visualization, resulting in a 25% increase in threat detection efficiency.
- Innovated privacy solutions from LLM models. Developed and optimized internal chatbots, addressing privacy concerns through diverse data training and parameter adjustments.
- Enhanced mobile application privacy practice while collaborating with legal teams. Strengthened data protection protocols, enforced least privilege access controls and led to successful launch in regional app market.

**TMT Analyst, Intern — CSC Financial, Shenzhen, China 06/2021 - 09/2021**

- Analyzed sensor and semiconductor chip supply in the midstream of China's new energy vehicle market in groups and accurately predicted a 30-40% increase in vehicle production in Q4 2021.
- Utilized Python, Bloomberg, and Wind to automatically update data sets related to semiconductors.

**Risk Management, Intern — Ping An Bank, Shenzhen, China 06/2019 - 08/2019**

- Tested timeliness of bank risk system and refined report process to save 20% reporting time.
